In re: Suspension of Registration of  
Pesticide Products Containing Propoxur  
for Failure to Comply With Data Call-In  
Requirements

Prentiss Drug and Chemical Co.,

Petitioner

FIFRA Data Docket No. 169

ORDER

Petitioner Prentiss Drug and Chemical Company filed a request for a hearing herein which was received by the docket clerk on November 28, 1990, after the expiration of the thirty day period provided by statute for such requests. Petitioner received a copy of the Notice of Intent to Suspend on October 22, 1990.

The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) § 3(c)(2)(B), 7 U.S.C. § 136a(c)(2)(B) states that:

Any suspension proposed under this subparagraph shall become final and effective at the end of thirty days from receipt of the notice of intent to suspend unless during that time a request for a hearing is made by a person adversely affected by the notice or the registrant has satisfied the Administrator that the registrant has complied fully with the requirements that served as a basis for the notice of intent to suspend.

This provision does not literally require that the request must be received during the thirty day period. Nevertheless, receipt of the request

rather than proof of mailing before the expiration of the period has consistently been held to be the measure of compliance with this provision. 1/  
In this case, it is unfortunate that such interpretation requires that the request for hearing be denied, and that the request for hearing be dismissed.

Accordingly, it is ORDERED that the request for hearing be denied, and that this matter be dismissed.
